**Assembly:**

**Eye**

Start four (4) rows down from the top of the head, and three (3) stitches in from the left. Our eye spans five (5) stitches across.

**Mouth**

Start nine (9) rows down from the top of the head and two (2) stitches in from the right.

**Legs, Horn and Ears**

Cut off three lengths of Off White yarn about 30 cm (12 inches) each.

Put them aside for later.

Place the two body panels together, matching up all sides.

\*\*Make sure the face of your Unicorn is facing you as you crochet around the outside of the piece.\*\*

Starting in the middle of the left-hand side of the Unicorn (beneath where the tail will be), begin attaching the panels together by single crocheting around the outside using Off White yarn. Stop before you get to the corner. Pull up a long loop and leave this for now.

Now, with your tapestry needle and a length of Off White yarn that you set aside earlier, place the legs all in a row between the panels and attach them by sewing through all three pieces; the top panel, the leg, and the bottom panel. Sew all the way across all four legs. Tie a knot to secure, hiding the tails between the panels of

the body.

Now, picking up where you left off, continue single crocheting around the outside of the body. (Sc, ch, sc) in the corner. When you get to the legs, simply sc in the stitches of the front panel only; since this portion is already sewn shut, it's for aesthetics only. Once you are past the legs, continue single crocheting both panels together as normal.

Crochet up the neck. In the corner of the neck and head (i.e. the inverted corner), Sc 2 (without the chain space). (Sc, ch, sc) in each corner of the head.

Crochet about seven (7) stitches across the top of the head and then stop. Place the horn between the panels and sew in place the same way you did for the legs, using a length of Off White yarn that you set aside earlier.

Place the ears in the top left corner of the head and sew in place the same way you did for the legs and horn.

When finished attaching the ears, continue single crocheting around the outside of the body. (Sc, ch, sc) in the corner of the head. Remember, when you get to the horn and ears, simply sc in the stitches of the front panel only, since this portion is already sewn shut.

Stop half way down the neck. Stuff the body.

When stuffing is finished, continue crocheting around the outside. Sc 2 (without ch space) in the inverted corner of the neck and back.

Top up stuffing if necessary. Close with a slst to first st. Tie off. With your tapestry needle, poke the yarn tail back inside the piece.

## **Finishing Touches**

### **Mane**

Cut twelve (12) lengths of about 45 cms (18 inches) long of the Mille Colori Baby. Starting in the stitch immediately to the left of the horn, fold over two lengths of yarn and use your hook to pull both loops through the stitch. Pull the yarn ends through the loop to make a knot. Repeat for a total of 30 stitches across the head and down the neck.

### **Tail**

For the tail, we wanted the yarn to be more bunched together so we used 6 lengths of about 38 cm (15 inches) long folded over and pulled all 6 loops through one stitch.

Start in the stitch to the right of the corner stitch where the tail will go. Repeat over the corner stitch and the next three stitches along the left side of the body.

### **Styling**

After attaching, trim the mane and tail so all the yarn is more or less the same length. We positioned the first three pink stitches of the mane (next to the horn) to fall behind the unicorn's head. You can style your Ragdoll Unicorn's mane and tail

any way you wish! Braids or twists would also look beautiful.
